

Welcome to Germany's leading Science and Technology Park - Berlin Adlershof

www.adlershof.de

What is Adlershof?

Berlin Adlershof is one of Europe's most successful centres for business and scientific research. On an area of 4.2 square kilometres (1,038 acres), a modern **City of Science, Technology and Media** has emerged, boasting over 800 companies and 14,000 employees.

At the core of this city of science, is a **state-of-the-art technology park** housing over 400 companies and **eleven non-university institutes**. Adlershof is also home to **Humboldt University's Natural Science Campus** with more than 6,800 students.

The businesses and non-university research institutes are focused on five specific fields of technology:

- Photonics and Optical Technologies
- Material and Microsystems Technology
- Information and Media Technology
- Environmental, Biological and Energy Technology
- Renewable Energy and Photovoltaics

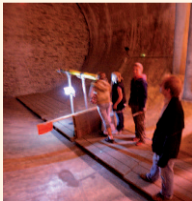

With over 140 companies, Adlershof is also **Berlin's biggest media location**. By S-Bahn, it is only 25 minutes away from Berlin's city centre. Plus, within walking distance you'll find vibrant neighbourhood with stores, hotels, restaurants and a 66-hectare park. For more information please visit www.adlershof.de/what.

2

When to come to Adlershof?

Adlershof has much to offer: a **clear technological profile, fully developed properties, excellent buildings, cooperative research facilities and attractive investment assistance.**

In addition, Adlershof is also developing an international reputation as a great venue for hosting business and science events. The highlight of the year is the "**Long Night of Science**". For a detailed account of the dates and times of these events, please visit www.adlershof.de/when.

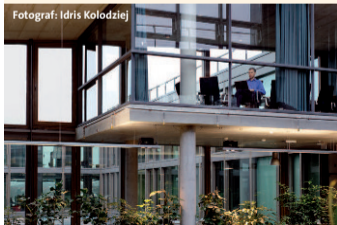

Who

to contact?

All your needs regarding real estate, marketing, project development and cooperation will be met by WISTA-MANAGEMENT GMBH, the development and operating company of the Science and Technology Park Adlershof.
